a different formula or a visual representation like a probability tree diagram see below

Visual A simple probability tree diagram illustrating the probability of drawing a specific card Insert a simple clear image of a probability tree diagram here It should be easy to understand and relate to the example of drawing a card Another example might involve hypothesis testing The solutions manual would guide you through the process from formulating the null and alternative hypotheses to selecting the appropriate test statistic calculating the pvalue and making a conclusion This stepbystep approach is crucial for understanding the nuances of hypothesis testing
