introduction to the knowledge and skills needed to manage all linux distributions covers the objectives for the comtia linux certification exam and the novell certification linux professional clp practicum exam

this book ambitiously weaves together history and politics to explain all of the major situations where mass atrocities have occurred or been prevented over the 15 years since the responsibility to protect r2p was adopted at the 2005 un world summit the author provides a history of human rights mass atrocities and the principle of the r2p from the perspective of someone whose day job has been to work with the un security council various governments and civil society to help ensure the international community does not fail those who face the threat of genocide war crimes and crimes against humanity today it examines the implementation of the controversial principle of r2p since 2011 and how we end the politics of impunity indifference and inaction once and for all using case studies from iraq syria myanmar and libya the book offers a unique perspective regarding how we make never again a living principle rather than a cliché and how we end the politics of impunity indifference and inaction once and for all it will be of especial interest to scholars students and policymakers working in the fields of international politics or concerned about human rights atrocities the united nations and international justice in the world today

the importance of training and education is on the increase while the production of human capital is seen as a motor for a competitive economy skills and expertise proof to be necessary for social mobility remarkably in conceiving modern forms of apprenticeship several mechanisms from the acien regime seem to return the difference between public and private initiative is disappearing education and training is being confused and in order to acquire generic skills as flexibility communicability self rule creativity and so on youngsters have to learn in context even for maths scholars now talk of situated learning before the advent of a formal schooling system training took place on the shop floor under the roof of a master the apprentice not only worked but also lived in his master's house and was thus trained and educated at the same time in cities this system was formally complemented by an official apprenticeship system prescribing a minimum term to serve and an obligatory masterpiece for those who wanted to become masters themselves traditionally historians see this as an archaic and backward way of training yet this book's aim is to show that it was instead a very flexible and dynamic system perfectly in tune with the demands of an early modern economy in order to understand it fully however we should differentiate the informal training system organised via a free market

of indentures on the one hand and the institutionalised system of craft guilds on the other in antwerp early modern guilds had a project of emancipating their members they didn't simply produce certain skills but through a system of quality marks defended the honour of craftsmen this is the difference with current practices by representing hands on skills as superior guilds supplied a sort of symbolic capital for workers

this book introduces readers to the basics of novell's suse linux enterprise server configuration and administration hands on labs and plenty of practical examples will guide learners in the management of users file systems software system initialization and processes in addition readers will explore the configuration and maintenance of various network services used on local and remote networks at the end of the book a series of questions fuse the essential principles with additional discovery exercises to help users prepare for the novell certified linux professional clp practicum certification exam back cover
