hermeneutics remains a divisive and polarizing topic within scholarly and ecclesiastical communities in
south africa these tensions are not limited to theoretical differences but often crystallize on a grassroots
level when local churches and church assemblies have to make important decisions on controversial
ethical topics such as ordaining women in church offices assessing the ethics of gay marriages and taking
a stance on the land debate in south africa this book makes a unique contribution in two ways firstly it
focuses on the uniquely south african hermeneutical landscape secondly it relates theories to practical
ethical application the unique scholarly contribution of this consists in it relating hermeneutics to ethics
within the south african landscape a diverse group of scholars have been invited to partake in the project
and the views expressed are often quite diverse this allows readers to develop an understanding and
sensitivity of the various angles employed and the interests at stake in addressing difficult societal
problems
